

VITAMIX 33

COMPLEMENTARY FEED FOR LIVESTOCK

VitaMix 33 is a balanced combination of water-soluble and lipid-soluble vitamins, amino acids and minerals. Intended for the prevention of vitamin deficiencies. Helps improve FCR, reduces stress (due to treatment, vaccination, disease, transport, extreme temperature or climatic changes, moulting periods and peak egg-laying periods). It helps metabolise fats, proteins and carbohydrates and improves natural defences.

INSTRUCTIONS FOR USE

Dilute the product in water. The dose should be adjusted according to daily consumption as follows:

CATTLE:

Calves: 5 to 10 ml per day for 5 consecutive days per month.
