## Insecticide Concentrates

The Digrain brand is synonymous with a high quality product at a fair price. Only formulations that excel in testing will be registered and launched. One of the leading brands in the UK pest control market, has been extended with two new exciting additions.

### Digrain C40 WP

#### 40% Cypermethrin as a wettable powder (400g per kg)

New and highly effective wettable powder with proven long term residual activity. For use against flying and crawling insects in and around domestic and industrial establishments, hospitals, military areas, slaughter houses, refuse tips, dustbins etc. For use on furnishings, hard horizontal and vertical surfaces where pests may rest. Each 10g sachet dilutes in 5 litres of water for routine treatments of flying and crawling insects. Proven 100% long term mortality on insects such as bedbugs / cockroaches. Supplied in easy to use sachets – pack contains 50% more applications against other comparable products.

Our exclusive 2g sachets dilute in 1 litre of water for convenience with smaller doses.

HSE: 10402

In conclusion, this report finds that Digrain C40 WP when applied at standard label rates onto ceramic and wooden tiles being kept at ambient environmental conditions, is effective in controlling *Cimex lectularius* for up to **28 days with a mortality of 100%**.

- ▶ 40% Cypermethrin - Highly effective wettable powder with long term residual activity
- ▶ Proven 100% long term mortality on bedbugs and cockroaches
- ▶ 50% more applications vs other comparable products
- ▶ Available in: 500g container, 15 x 10g sachets and 20 x 2g sachets for 1L dilution

Code	Description	Price
DC402	Pot containing 20 x 2g soluble sachets	£32.19
DC40SACHETS	15 x 10g sachets	£71.08 per pack
DC40500G	500g container	£175.97

In conclusion, this report finds that Digrain C40 WP when applied at standard label rates onto ceramic and wooden tiles being kept at ambient environmental conditions, is effective in controlling *Periplaneta americana* for up to **28 days with a mortality of 100% and a knockdown of 100%**.

### Digrain Force EW

#### 14.5% Cypermethrin, 4.5% Tetramethrin, 19.3% Piperonyl Butoxide

A high strength EW concentrate combining actives to ensure fast and effective control with long term residual. A great all round product packed with a high level of active ingredient for the successful control of flying and crawling insects on surfaces where insects may rest.

Dilution 25ml to 5 litres.

HSE: 10407

<b>Code</b>	DFORCE
<b>Description</b>	250ml dosing bottle
<b>Price</b>	£51.43

### Digrain Cyperbio 100EW

#### 9.86% Cypermethrin

A highly effective broad spectrum, water based insecticide with long term residual activity. An insecticidal surface spray for use in public health, food storage practice, waste and sites. Available at a very competitive price.

Dilution: 25ml to 4 litres water

HSE: 7507

<b>Code</b>	I3173
<b>Description</b>	1 Litre dosing bottle
<b>Price</b>	£ 51.13

## Digrain Bugster EC

### Prallethrin 2% w/w, Cypermethrin 10% w/w

Digrain Bugster is a brand new all-purpose professional-use insecticide by Lodi UK. Designed for use when both hot or cold fogging and as a surface spray, it's an effective control method against flying and crawling insects including moths, wasps, fleas and cockroaches. Bugster contains a generous 2% of Lodi's much-loved prallethrin active offering a fast knockdown with great results in minutes. Coupled with cypermethrin, a trusted residual, Bugster is a general-purpose insecticide that every pest controller should have in his armoury. Digrain Bugster can go where many other products can't, including hospitals and kitchens, as well as domestic and commercial properties, hotels, restaurants, ships, and more.

- **2% prallethrin active offering a fast knockdown with great results in minutes**
- **Combined with cypermethrin for a trusted long-term residual**
- **Designed for use when both hot or cold fogging and as a surface spray**
- **Suitable for spraying and ULV cold & thermal hot fogging**
- **Fast knockdown**
- **8 to 12-week residual**
- **All-purpose insecticide treatment**

HSE: 10831

Code	Description	Price
BUGSTEREC1L	1 Litre dosing bottle	£139.19

## Digrain Wasp & Hornet Destroyer

### 0.25% Permethrin, 0.24% Tetramethrin

Giant 600ml can - spray length of 15-18 feet. Highly effective wasp and hornet spray. Fast acting insecticide aerosol for the control of wasps, hornets moths and flies. Nozzle and valve design provides a directional jet of product of 18 feet offering operator safety. Combined action of 0.25% Permethrin with the knockdown of 0.24% Tetramethrin. Large can size for improved economy.

**For use in and around buildings.**

HSE: 7644

## Digrain Control

### 0.25% Permethrin, 0.24% Tetramethrin

Giant 600ml can for both Flying & Crawling insects. No need to carry two cans around for crawling and flying insects when this giant does both.

HSE: 7493

<b>Code</b>	18057
<b>Description</b>	600ml aerosol can
<b>Price</b>	£ 11.19

<b>Code</b>	18059

# READY-TO-USE

## Oil-based Insecticide

The strongest oil based ready to use insecticide available to UK pest control.

### Perbio Choc RTU

**0.64% Permethrin, 0.63% Tetramethrin**

Perbio Choc RTU contains 0.64% Permethrin and 0.63% Tetramethrin for a quick knockdown and long term residual. Since its launch over 8 years ago it is one of the most popular ready to use insecticides available. Pest controllers are guaranteed speedy control that will please you and your customer.

The residual can last for up to 3 months ensuring the treated area remains pest-free for a long length of time. For use against flying and crawling insects including ants, cockroaches, fleas, flies, wasps, mosquitoes, stored product moths, red mites, fruit flies, bedbugs by application to surfaces, hard and soft furnishings, cracks and crevices.

For use in commercial, industrial premises including kitchens, hospitals, military, food handling / processing / storage / preparation areas. In and around farm buildings, dairies, animal housing plus amenity areas, in sewage works, refuse disposal and waste storage areas including refuse tips and landfill sites.

- Can either be sprayed or fogged
- Surface spray – 50ml product to 6.25 square metres
- Space treatment – 0.4ml product to 1 cubic metre (5L treats 12,500 cubic metres)

HSE: 7494

Code	Description	Price
I32831	1 litre trigger bottle	£14.26
I3284PCO	5 litre canister	£59.85

## DUSTING POWDERS

### Quartz AZ Dusting Powder

**0.5% Azamethiphos**

A new molecule for the targeted control of bedbugs and wasps. Quartz AZ is a dusting powder that contains Azamethiphos which can be applied to cracks and crevices, skirting, plug sockets and any other area where bedbugs may hide.

Azamethiphos offers the pest controller a wholly new molecule and supports you in controlling bedbugs that could potentially be resistant to other families of active ingredients.

HSE: 9696

### Ficam D

**1.289% Bendiocarb**

Highly effective insecticide.

UK-2018-1136

IE/BPA: 70406

### Deadline Woodworm Treatment Fluid

**Permethrin 0.320% w/w, Propiconazole 0.077% w/w, Tebuconazole 0.073% w/w, 3-iodo-propynyl-n-butyl carbamate 0.074% w/w**

A ready to use formulation for the control of wood boring insects including woodworm and wood boring beetles. It also prevents and controls wood rotting fungi. Easy to use and fast drying. Available in 5L.

The water based, low odour formulation is suitable for spraying or direct application with a brush. Suitable for both internal and external timber.

# GEL BAITS

## Addict Cockroach Gel

### NEW ACTIVE / NEW GENERATION!

#### 2% Dinotefuran

A bold new product with a new active ingredient coupled with an alluring formulation for fast acceptance by both gel-averse and non-gel averse cockroaches.

Formulated with Dinotefuran – a leading active in US cockroach control that acts on both contact and ingestion! Highly effective on all cockroach species quickly establishing control of the adults, nymphs and nests.

Independent test data highlights the speed of control with over 50% killed within 14 minutes and 100% in less than an hour. This is up to 23 times faster than other comparable products.

- **100% Cockroach mortality in less than 1 hour**
- **Brand new active substance to Europe with no known resistance**
- **Dinotefuran – leading cockroach active in the US**
- **New UK formulation**

BPR: UK-2017-1064

**For use in  
commercial &  
industrial premises,  
kitchens, households,  
hospitals, nursing  
homes etc.**

Code	Description	Price
I8080	Box of 4 x 30g tubes	£34.67 per tube

## Imidasect Cockroach Gel

### 2.15% Imidacloprid

Imidasect cockroach gel is specifically formulated to attract and control various species of cockroaches. Imidasect contains the proven Imidacloprid active which allows the cockroach to return to the nest transferring the bait to other cockroaches and the queen resulting in the death of the entire colony.

HSE: 9694

Code	IMID02
Description	35g Tube
Price	£24.10 per tube

## Imidasect Ant Gel

### 0.01% Imidacloprid

A highly effective formulation to attract and control Pharaoh ants, Argentine ants and black ants. Foraging ants will feed on the bait and then return to the nest, transferring the bait to the queen and the entire colony. Visible signs of the bait working should be seen within a few days of application. Apply bait in drops of about 1cm in diameter or in lines of about 7cm where ants are known to be foraging.

HSE: 9700

Code	IMID01
Description	35g tube
Price	£27.02 per tube

## Lodi Gel Applicator Gun

A lightweight and cost effective applicator gun.

Code	APP01
Description	Gel applicator gun
Price	£21.18 per gun

# A COMPLETE AND TARGETED APPROACH FOR **BEDBUGS**

**Proven  
products,  
new actives and  
formulations  
to target  
bedbugs!**

**Fast knockdown  
and residual**

**Treating mattresses  
& bedding**

**Powerful One Shot fogger**

**Highly effective wettable powder  
with long-term residual activity**

## Phobi CAPS

**Cypermethrin 9.2%, Prallethrin 0.46%**

A new UK Prallethrin active adding to the Phobi range!

- Fast knockdown and residual
- Odourless and non-staining
- Active on porous and non-porous surfaces
- Microencapsulation ensures long-term stability of the active against light, temperature and humidity
- Different sized capsules within the active allows for regular and continuous release

Phobi Caps is a micro-capsulated insecticide used against crawling & flying insects such as cockroaches, bed bugs, ants, flies and mosquitoes. Prallethrin gives the product a shock effect while the microencapsulation of Cypermethrin ensures the stability to light, temperature and humidity. Thanks to the different sizes of capsules, the release of cypermethrin is regular and continuous.

HSE: 10658

Code	Description	Price
I7216	500ml dosing bottle - concentrate	£72.16

## Phobi Dose RTU+

**Cyphenothrin 0.06% w/w, Imiprothrin 0.04% w/w, 0.01% Natural Pyrethrum**

- Can be used on soft and hard furnishings including mattresses and bedding

Phobi Dose is an innovative and highly effective formulation containing the active ingredients Imiprothrin and Cyphenothrin. The Imiprothrin active has a phenomenally fast knockdown effect proven in the field and laboratory trials. The combination with Cyphenothrin gives Phobi Dose an all-round knockdown and residual of up to 3 months on non-porous surfaces.

Phobi Dose RTU in a 5 litre canister has the ability to be used on soft and hard furnishings including mattresses and bedding. Phobi Dose RTU can also be used on houseflies, mosquitoes, cockroaches, fleas, ticks, and moths.

HSE: 10688

Code	Description	Price
I5249	5 litre canister - RTU	£52.30

## Phobi Flash Dose

**2.175% Pyrethrins**

A new addition to the Phobi range! Phobi Flash Dose is a concentrate based on natural pyrethrum synergised with PBO. Highly effective on flying and crawling insects used in a number of indoor situations including the food industry. Phobi Flash can be applied either as a coarse spray or through a fogger.

HSE: 8454

Code	Description	Price
IF4217	500ml dosing bottle	£55.06

## Phobi F&F+ One Shot

**0.11% Imiprothrin, 0.33% Cyphenothrin and 0.01% Natural Pyrethrum**

The Phobi F&F+ One Shot fogging device is formulated with the proven combination of actives used in the Phobi range (Imiprothrin & Cyphenothrin). Faster and more effective than any other comparable product on the market.

- 100% mortality of flying insects in 3 minutes
- 100% mortality of German cockroaches in 5 minutes

The increased strength and speed of control and large application area of 375m<sup>3</sup> makes it an essential product in any pest controller's armoury.

For use in all indoor situations against flying and crawling insects - simply press and twist the nozzle to release and all pests will be controlled in minutes.

HSE: 10680

Code	Description	Price
I4206	300ml One Shot aerosol	£13.00

# ORGAN-X PRO

100% Natural Insecticides

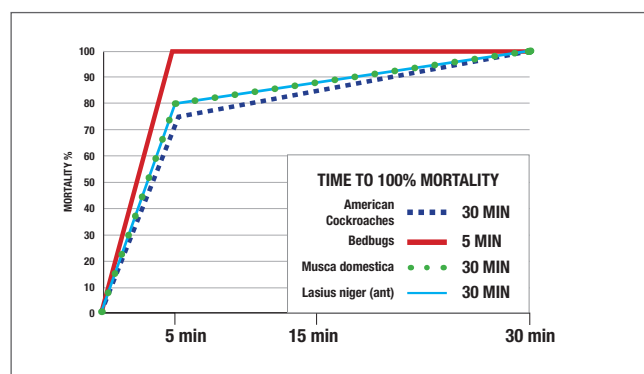

Our Organ-X range has expanded with the addition of **Organ-X PRO** products!

A 100% Natural range of products extensively tested and proven to control insects within minutes. The all new Organ-X PRO range is the culmination of over two years' research, with over 80 formulations developed, tested and rejected to leave the final Organ-X PRO as the stand out formula for natural insect control. Once Organ-X PRO is sprayed, the target insect is disabled almost instantly, and death occurs within minutes.

When paired with our Desi-DUST Entrapment Powder living conditions are uninhabitable for insects!

- ▶ **Proven control of insects within minutes**
- ▶ **100% Natural physical action insecticide**
- ▶ **Odourless and non-staining**

**Efficacy Data:** Test on Organ-X Pro natural insect control solution, under laboratory conditions. Actual use may vary.

## Organ-X Pro RTU

A new unique pesticide free insect spray with proven 100% efficacy. Two years of development and testing have resulted in a pesticide free spray that disables and controls insects fast and effectively. A direct spray onto the target organism will ensure fast control proven in field and laboratory tests. Based on a natural-origin polymer, Organ-X Pro Insect Killer is a unique formulation that creates a coating and acts by physical contact on the target insect.

<b>Code</b>	I3286
<b>Description</b>	500ml RTU
<b>Price</b>	£11.21

## Organ-X Pro Concentrate

Organ-X Pro Concentrate is a 100% natural insect control solution made from natural polymers. It is pesticide-free and functions solely by physical means and is effective in controlling most types of common flying & crawling insects such as bedbugs, ants, cockroaches, flies, fleas and stored product insects.

Dilute at 1 part concentrate to 9 parts water. Knock down by physical action with proven 100% efficacy. Perfect to use in instances where biocides are regulated or prohibited.

<b>Code</b>	I3287
<b>Description</b>	500ml Concentrate
<b>Price</b>	£23.47

## Organ-X Pro Freeze Spray

Lightning elimination solution for crawling and flying insects! Neutralizes and instantly kills insects. Chemical free, odourless and non-staining, this freeze spray is effective on cockroaches, spiders, ants, fleas, bedbugs, silverfish and against flies, mosquitoes, wasps, hornets, wasp nests etc. The pests are not poisoned, but simply frosted. Due to the sudden cold, the cells of insects, larvae or eggs burst and the pest dies immediately.

<b>Code</b>	I7518
<b>Description</b>	500ml Can
<b>Price</b>	£9.40

# ORGAN-X

100% Natural Insecticides

## Organ-X Desi-DUST

Organ-X Desi-Dust Natural Hygiene Powder is made from 100% tiny abrasive fossilised silica diatoms also known as Diatomaceous Earth.

Diatomaceous Earth promotes a healthy environment for poultry, pets (animals), plants and more.

- Contains 100% natural diatomaceous earth
- Promotes healthy environment for poultry, plants and animals
- Can be applied directly to and around poultry, pets and animals

For a full hygiene approach in animal housing and pesticide-free insect control use along side Organ-X Pro Spray.

Code	Description	Price
ORGAN-X-P	450g container	£5.81
DESIDUST2	2kg bucket	£13.48

### Organ-x Flea Lamp

Easily and safely eliminate fleas. Takes advantage of insect's phototaxis and thermotaxis. Emits attractive light at different spectral frequencies to seduce target insects. Mode 1-2 target at fleas. Mode 3-4 target at small flies. Additional sticky boards prevents pest insects from escaping. A wide range of indoor applications.

<b>Code</b>	<b>Description</b>	<b>Price</b>
RAC1120	Organ-X Flea Trap	£14.99
RAC1121	Replacement Glue Boards x5	£2.05

# INSECT TRAPS

## Pheronet Clothes Moth Trap

A discreet, pre-baited sticky trap that monitors and detects moth activity.

- Precision dosed pheromone for insect attraction, pre-baited in non-drying glue
- Detects moth activity at early stage to prevent infestation
- Small, compact trap for use in tight spots or areas where monitoring should be inconspicuous
- Ready to use, insecticide free and non-toxic

Includes: Pack of 10 x pre-baited Clothes Moth Traps

Code	Description	Price
CAT-NO40-242	10 x pre-baited Clothes Moth Traps	£23.97

## Prebaited Insect Trap

Made with high quality food grade cardboard and pressure sensitive glue.

- Designed with angled slope entry ramps to facilitate upward crawling to the sticky surface
- Insecticide free and non-toxic
- Compact traps for placement in difficult to reach places

Includes: Pack of 300 Insect/Cockroach prebaited traps

Code	Description	Price
CAT-NO10-SRD	300 pre-baited insect traps	£47.95

## Xlure Checkpoint Kit

Durable permanent trap designed for long term monitoring of stored product moths.

- High capacity to hold hundreds of moths
- Waterproof and efficient in dusty areas
- Replaceable liner coated in non-drying glue with pheromone
- Shaped check patterned liner proven to increase visual attraction

Includes: 1 Check Point Moth Pot, 1 Lure, 1 Liner, 1 Cap & 1 Cage

Code	Description	Price
019-XLURE-CHK	Checkpoint Kit	£14.09

Code	Description	Price
CAT-M11	Replacement lure for Xlure Checkpoint Kit	£1.50

## Insect Gel Bait Station

The Lodi Insect Bait station has an adjustable entry point to allow the use to deal with an array of insects from Cockroaches to Ants.

Code	Description	Price
INSGELST	Insect Gel Bait Station	0.38p each

# AGRICULTURE

## Insect Control

### Granular Larvicide, 2% Cyromazine

Maggots is a highly efficient larvicide that attacks the maggot and stops it developing into a fly. Formulated with the growth regulator cyromazine it is very easy to use and can either be sprinkled on slurry or sprayed after dilution in water. Maggots is the only effective way of stopping fly problems and the results can be seen on the adult fly population in approximately 2 weeks after first application.

Fly larvae feed in the top four inches (100mm) of muck and it is important that the product is applied in four inch (100mm) layers.

Maggots targets 80% of a fly's life cycle. This ensures that the problem is tackled at source as prevention is better than a cure. With up to 7,000 maggots in 1kg of muck fly problems can occur very quickly. Flies are responsible for a number of diseases in your livestock or poultry house including Salmonella and Brachyspira which can dramatically reduce production levels or in the worst cases shut down your farm.

Application	Dose Rate	Treated Area
Dry scattering	500g	20m <sup>2</sup>
Spraying (directly onto muck)	500g / 5L of water	20m <sup>2</sup>
Spraying (indirectly – through slatted floor units)	500g / 15L of water	20m <sup>2</sup>

# Maggots

Maggots is a fly larvicial product which is specially formulated to eliminate and control nuisance fly larvae. The product is primarily used in:

- Poultry Houses
- Dairy and Calf Units
- Pig Fattening and Pig Breeding Units
- Sheep and Goat Units
- Horse Stables
- Waste Management Sites

**MAGGOTS  
ATTACKS  
80%  
OF A FLIES  
LIFECYCLE**

Maggots will help to reduce liquefaction of manure, leading to easier removal of muck which will ultimately save time and money and produce better manure quality. The product is proven to reduce ammonia and help to reduce odour (therefore reduces ventilation costs). A decrease in fly population is proven to increase productivity in animal housing.

HSE: 9553

Code	Product	Price
MG20	Maggots 20kg sack	£220.60
MG10	Maggots 10kg bucket	£125.01

## Larvenol Larvicide

### 0.4% S-Methopren

Larvenol is a brand new insect growth regulator for use in poultry and livestock housing containing S-Methoprene. Larvenol is applied as a granule directly onto the muck or areas where flies and maggots are breeding (ie mortality bins). Larvenol will ensure that the larvae can't develop into adult flies and will control an infestation before it starts.

HSE: 9980

Code	Product	Price
I5253	1kg bucket	£33.73
I5251	20kg bucket	£302.80

## Twenty One Wettable Powder Concentrate

### 10% Azamethiphos

Twenty One is a highly effective insecticide for treating livestock and poultry housing. Twenty One's unique formulation contains fly attractants that lure flies to the treated area and upon ingestion flies die almost instantly. Twenty One can be effective for up to 10 weeks.

HSE: 8851

1kg pack – 4 x 250gm sachets.

TO SPRAY - Dilute 125gm to 5 litres water to treat 100 sq. metres

TO PAINT - Dilute 500ml water with 500ml WP to create paste and paint 30 x 30cm spots

<b>Code</b>	IFLY
<b>Description</b>	1kg bucket
<b>Price</b>	£124.53

## Sheila Ready To Use Granular Fly Bait

### 1% Azamethiphos

Sheila Fly Bait is based around the highly successful active ingredient – azamethiphos unique to LODI UK. Sheila Fly Bait is a ready to use granule which is formulated with the same attractants and sex pheromones found in Twenty One. Simply scatter Sheila onto trays and place on surfaces / muck, where flies congregate. Sheila RB1 will attract flies that will die almost instantly after ingestion. Results will be seen very quickly with many dead flies next to the Fly bait. Priced very competitively to target the pyrethroid knockdown sprays which are proving ineffective with issues around resistance.

HSE: 9352

<b>Code</b>	SH-2
<b>Description</b>	Sheila 2kg bucket
<b>Price</b>	£62.15

## Perbio Choc RTU Ready To Use Adulticide

### 0.64% Permethrin, 0.63% Tetramethrin

One of the strongest oil based ready to use insecticides. Perbio contains 0.64% Permethrin and 0.63% Tetramethrin for quick knockdown and long term results. Use for controlling flies and other insects in and around farm buildings, dairies, milking parlours, animal rearing facilities and animal housing.

HSE: 7494

<b>Code</b>	I3283
<b>Description</b>	1 litre trigger spray
<b>Price</b>	£14.26

<b>Code</b>	I3284
<b>Description</b>	5 litre canister
<b>Price</b>	£59.85

## Flash Dose Dairy Fly Spray Super Concentrate

### Pyrethrins 2.175%

Insecticide for professional use against flying and crawling insects such as ants, cockroaches, fleas, flies, mosquitoes, wasps and hornets. For use in and around Farm Buildings, Dairies, Milking Parlours, Animal Rearing Facilities and Animal Housing.

HSE: 8454

<b>Code</b>	I4218
<b>Description</b>	500ml dosing bottle
<b>Price</b>	£55.06

## Digrain Fly Reel, Refill & Glue Roll

An easy to install kit designed to effectively tackle flies. It is a non-toxic and environmentally friendly solution to fly control and proven to be a successful method of control throughout the farm. Also available as a glue roll, a specially crafted surface impregnated with fly sex pheromones and covered with specially formulated attractive glue.

<b>Code</b>	<b>Description</b>	<b>Price</b>
IFGR10	12 x 10m rolls per case	£9.81
IFRK	Fly Reel 400m string	£41.66
IFRR	400m refill string	£21.20

## Organ-X Fly Trap Bag

A safe and effective way to trap and deal with the invasion of flies in homes, farms, smallholdings and stables. Works within days when hung outdoors in your garden, approx 15m from your home in a nice sunny position, whilst on farms they can be placed around your livestock and poultry sheds or stables.

• Just add water and trap up to 40,000 flies

<b>Code</b>	FLYBAG
<b>Description</b>	Pack of 12
<b>Price</b>	£10.02 per unit

# APPLICATION EQUIPMENT

## Wasp Control

### PA2-PK Dusting Equipment

Gun, regulator, powder barrel, powder applicator, support handle for lance joint, 24 CO2 cartridges, 2 x 1.5 m aluminium lances.

Dusting application equipment for use with: Quartz, Desidust, Ficam D & Vulcan.

## PA2-PK DUSTING EQUIPMENT CAN BE USED WITH

### Quartz AZ Dusting Powder

#### 0.5% Azamethiphos

A new molecule for the targeted control of bedbugs and wasps. Quartz AZ is a dusting powder that contains Azamethiphos which can be applied to cracks and crevices, skirting, plug sockets and any other area where bedbugs may hide.

Azamethiphos offers the pest controller a wholly new molecule and supports you in controlling bedbugs that could potentially be resistant to other families of active ingredients.

HSE: 9696

### Ficam D

#### 1.289% Bendiocarb

Highly effective insecticide.

UK-2018-1136  
IE/BPA: 70406

### Organ-X Desi-DUST

Organ-X Desi-Dust Natural Hygiene Powder is made from 100% tiny abrasive fossilised silica diatoms also known as Diatomaceous Earth.

Diatomaceous Earth promotes a healthy environment for poultry, pets (animals), plants and more.

- Contains 100% natural diatomaceous earth
- Promotes healthy environment for poultry, plants and animals
- Can be applied directly to and around poultry, pets and animals

For a full hygiene approach in animal housing and pesticide-free insect control use along side Organ-X Pro Spray.

## Jade Cluster Grain

### 0.005% Bromadiolone

A new unique formulation that combines the advantages of all the current day baits into one innovative solution. The smoothness of the paste coupled with the crunch of the various cereals, provides rodents with an extremely palatable bait to help control infestations quickly.

This particular field test took place on a farm over 8 days. Each bait station contained a cluster grain bar / a sachet of paste and block. The bait stations were checked every day and the bait consumption noted.

- **Extremely palatable, irresistible formulation**
- **Easy to eat shaped bars**
- **Ideal for dry and damp conditions**
- **Packed with sesame, millet and much much more!**
- **Packed in individual sachets with a transparent strip so that you don't come into contact with the bait**

Authorisation code UK-2013-0807  
IE/BPA 70165

Code	Description	Price
R8453	Jade Cluster Grain 5kg	£78.00

## Brodifacoum Based Baits

### Sapphire Grain

#### 0.005% Brodifacoum

A unique formulation combining the attraction of premium grade whole and cut wheat for both rats and mice. The special blend will solve the toughest rat and mouse infestation with a bait that appeals to both species. Sapphire grain is a single feed poison with a lethal dose consumed within hours. The new registration allows it to be used in and around buildings to deal with an infestation of that building.

Code	Description	Price
SB300	Sapphire Blocks 12 x 300g pot	£7.26
SB3KG	Sapphire Blocks 3kg	£44.72

# MOUSE KILLER

Black Pearl Paste and Grain are highly attractive baits containing micro-encapsulated Alphachloralose. Formulated to control mice infestations within 24-48 hours.

The Alphachloralose active belongs to the narcotic family. Only a small amount needs to be consumed by a mouse and the active will start to take effect by reducing the body temperature of the mouse until it falls into a coma and dies. In a lot of cases this can take as little as a few minutes.

There is very little danger of any secondary toxicity issues with Alphachloralose as residues in dead mice are negligible and won't affect any predators that might prey on a mice controlled by Black Pearl.

## Paste

### 4.00% Alphachloralose

A unique and highly attractive bait formulated from a blend of premium grade cereals, mulched and mixed together to give superior performance.

Authorisation code UK-2014-0870

Code	Description	Price

# BAIT STATIONS

## BETA Rodent Bait Station

The BETA bait station is a proven, robust and fully secured bait station ideal for internal and external use. Especially designed and manufactured for all environments as well as tricky locations; such as under pallets.

The BETA station is available with bait tray, bait securing rod and back plate all fully inclusive in the price.

- Very robust
- Tamper resistant
- Water resistant
- Supplied with click fast baiting rod
- Supplied with wall fixing bracket
- Same securing key as BORA bait station
- Lid springs to aid easy opening
- Supplied with detachable bait tray to protect bait from contamination

Code	Description	Price
BETA	Bulk Buy Discount Available	£5.89 each

## BORA Bait Station

Robust and fully secure rodent bait station suitable for indoor and outdoor use. BORA comes complete with 2x clickfast bait rods and 2x detachable bait trays.

The dome shape allows a lot of room for rodents to feed comfortably upright. The design also allows for maximum run-off of rainwater!

### Rat Snap Trap fits inside.

- Tamper proof
- Water resistant
- 2x detachable bait trays
- 2x click fast baiting rods
- 1x wall fixing bracket
- Same securing key as BETA bait station

Code	Description	Price
BORA	Bulk Buy Discount Available	£9.01 each

## Lodi Mouse Bait Station

A new tamper proof bait station designed to fit and secure various baits and bait blocks. The Lodi Mouse Bait Station has been manufactured with unique baiting pins to ensure that paste bait sachets are secured properly and cannot be pulled out of the box.

Paste bait sachets are now one of the most used rodenticides on the market and this is the first bait station with this unique system to ensure paste bait doesn't end up outside of the box! Also fits most bait blocks. Key included.

Code	Description	Price
LODIMOUSE	Bulk Buy Discount Available	£0.56 each

## Rotech Bullet

The Rotech Bullet Rat box, a compact design with all the strength of a larger Rat Station. Made from durable high quality plastic giving it a robust and sturdy design and overall finish.

- Secure tamper resistant lock system
- Unique lock in holder for Rat Snap Traps & T-Rex Traps
- Compartment for grain bait & rod for block & pasta bait
- Suitable for indoor or outdoor use
- Spare rods and dividers available
- Wall fixable
- Supplied with 2 Uni-keys per 10 units

Code	Description	Price
ROBULL	Bulk Buy Discount Available	£4.60

## Lodi SMART Mouse station

In areas where the use of rodenticide is restricted or you require a more non toxic approach to mouse control, the Lodi SMART mouse station comes in handy. Durable and of a high quality design, this tamper resistant station can be used safely and securely in all indoor locations. The quick view system design allows the user to identify if the snap trap inside the box has been activated by simply looking, removing the need to open the box during every inspection unless a mouse has been caught. The station can also be used in standard situations where the need for rodenticide is required.

**Code** RAC1109  
**Price** £2.63 per unit

**NEW**

## Racan Fox Trap & Larson Trap

- New Humane live capture cage traps
- Robust Galvanised Steel
- Easy to set
- Simply bait or decoy depending on trap

**Product** Fox Trap  
**Code** RAC1113  
**Price** £107.90 per unit

**Product** Larson Trap  
**Code** RAC1112  
**Price** £89.91 per unit

# METAL TRAPS

## Racan Mole Scissor Trap

Very popular and highly effective mole scissor trap. Double entry trap allows moles access to the trigger plate from either side of tunnel. Easy set long handles for safe grip and instant monitoring of triggered traps.

- Double entry trap
- Kills moles quickly
- Easy set

<b>Code</b>	RACO1095
<b>Description</b>	12 per case
<b>Price</b>	£3.21

## Racan Claw Mole Trap

Highly effective and successful mole trap designed and used by professionals. Triggered by the moles natural soil clearing upwards action. Double entry mole traps allows access from either side of tunnel. A must in the pest controller's armoury.

- Horizontal trigger plate
- Easy set
- Humane fast kill

<b>Code</b>	RACO1096
<b>Description</b>	6 per case
<b>Price</b>	£5.38

**NEW & IMPROVED**

## Racan Tunnel Mole Trap

Also known as the 'DUFFUS' or 'BARREL' mole trap. Another fantastic trap for catching those unwanted garden pests. Double entry trap catches and humanely kills mole from either side as it passes through the tunnel.

- Fast action / humane kill
- Double entry dual setting trap
- Easy set

<b>Code</b>	RACO1099
<b>Description</b>	24 per case
<b>Price</b>	£3.70

## Rat Cage Trap

A traditional style cage trap for the humane trapping of rats or similar sized pests. The entrance is quickly sprung closed when the intruder takes the bait. Safely trapping it inside. The cage also acts as a multi-catch trap with a one way door at the opposite end of trap allowing for further rats to be caught inside.

- Double entry multi-catch trap
- Re-usable
- No poison required

<b>Code</b>	RACO1097
<b>Description</b>	Single
<b>Price</b>	£14.46

## Rabbit & Squirrel Cage Trap

A traditional style cage trap that comes flat packed to avoid taking up lots of space. Very easy to assemble and de-construct when not in use. For the humane trapping of rabbits, squirrels and similar sized pests. The entrance is quickly sprung closed when the intruder takes the bait, safely trapping it inside.

- Easy to assemble flat pack design
- Re-usable
- No poison required

<b>Code</b>	RACO1098
<b>Description</b>	Single
<b>Price</b>	£24.64

# RODENT PROOFING AND EQUIPMENT

## Metex Ratwall

A cost-effective and robust stainless steel rat blocker- ideal for installation into underground drains.

- **Quick and easy to install.**
- **Well-engineered, strong unit.**
- **A highly effective Rat Blocking device**
- **Suitable for plastic, clay and cast iron drains**

Code	Description	Price
RAT110	Metex Ratwall 4"	£78
RAT110PK	Metex Ratwall 4" (4 Pack)	£175
RAT150	Metex Ratwall 6"	£115

## Metex Nordisk

Corrosion-resistant, industrial-grade rat blocker for installation within a drainage chamber. Manufactured from marine grade 316 stainless steel. Twin flaps and sharp serrated edges help to prevent rats from passing the valve and entering the property. Configured for drain inlet or outlet positions. Suitable for use in plastic, clay, concrete, cast iron and other pipe materials. WRc Approved. Can be installed by hand or from street level by using installation pole (sold separately).

Code	Description	Price
RAT 92016	Nordisk TX11 4 inch	£198
RAT 92018	Nordisk TX11 6 Inch	£238

## Metex Rat Tape

Two layers of butyl tape 'sandwich' with a dense stainless steel mesh core.

Code	Description	Price
RAT005	Metex Rat Tape 5 metre	£ 37.23

## Snap-Em Trap

Designed for simple and clean rodent attraction.

- Rodenticide free and non-toxic
- Quick and cost effective solution to baiting snap traps
- Quick to attract both rats and mice, including bait shy rodents
- Clean and simple application into most snap traps

Code	Description	Price
CAT-SNAPT-CH	Chocolate, pack of 10	£6.00

CAT-SNAPT-PE	Peanut, pack of 10	£6.00

## Metex Ratwall Installation Pole

Stainless Steel installation pole, with female threaded end for connection onto the Ratwall for ground-level installation.

Code	Description	Price
RAT002H	Metex Ratwall Installation Pole 950mm	£34
RAT003H	Metex Ratwall Installation Pole 2000mm	£ 40.52

## Anti Rodent Spray

**Specialised spray to protect electrical cabling and insulation materials from rodent attack for up to 6 months.**

Lodi Anti Rodent Spray contains a specially formulated vaporised solution that once sprayed forms a protective film. Simply spray on the surface and rodents will no longer chew through or bite into the treated area. An ideal product for domestic and agricultural buildings as well as farm machinery where rodents might bite through cabling.

Also effective against squirrel attack.

Code	Description	Price
R8061	500ml aerosol can	£19.75

## Deadline Fluorescent Tracking Gel

Innovative easy to use formulation removes the guess work to quickly identify rodent tracks, routes and hideouts. The gel is easy to apply in areas suspected of rodent activity. The gel is then picked up on the feet of the rodents and continues with them on their journeys. The fluorescent gel can then be easily spotted by using a UV light allowing technicians to track the routes and locations of the rodents. The non-toxic, odour free formulation is applied directly from the bottle and does not require additional tools. Suitable for both indoor and outdoor use and on vertical and horizontal surfaces. Not suitable on food contact surfaces.

HACCP Approved

Code	Description	Price
PSD110	300g Tube with Application Brush	£18.60

## Lodi Vent Cover

This stainless-steel mesh with plastic frame air vent cover, has been designed to prevent unwanted rodent access to your property via air vents and air bricks.

**They are available in five colours: brown, black, grey, white, buff.**

Available in the following three sizes:

Description	Price
Large 245x245mm	£12.59
Medium 245x170mm	£10.37
Small 245x95mm	£7.94

## Deadline Odourising Sachet (10pk)

These easy to use sachets emit a strong and pleasant 'wild orchid' fragrance to help mask the smell of dead rodents whilst absorbing malodours. Ideal to treat the unpleasant odour from rats, mice and pests that have died in inaccessible areas from which the bodies cannot be removed. Ideal for use in wall and floor cavities and ceiling voids. The sachets are long lasting for effective control. Simply place the sachets in the affected area.

Code	Description	Price
FR06	10 Pack	£51.45

# K-OBIOL

## Stored Grain Protection

LODI UK are the only company in the UK to offer you the full K-Obiol grain protection package. K-Obiol EC targets grain store insects in the fabric of your store and K-Obiol ULV targets insects in grain by treating the grain directly.

**Proven protection for UP TO 12 MONTHS!**

**Unique to the UK and exclusively available from Lodi UK! An innovative formulation which is applied directly to the grain giving it continual protection for up to 12 months.**

- New Ultra Low Volume (ULV) Pyrethroid Formulation containing Deltamethrin and Piperonyl Butoxide
- Ready to use
- No withholding period after treatment
- Up to 12 months control on grain and residues are removed in processing (Beer and Bread)

## K-Obiol ULV6

### Pyrethroid Formulation

K-Obiol® ULV6 is a modern pyrethroid formulation containing Deltamethrin, synergised with piperonyl butoxide for the control of all stored product insects known to infest grain and pulses. This Pyrethroid formulation is an ideal alternative to organo-phosphorus formulations.

### Ready to Use

K-Obiol® ULV6 is ready to use liquid grain protectant for the control of stored product pests including crawling insects such as grain weevils, flour beetles, grain borers, saw-toothed grain beetles and bean weevils and flying insects such as rice moths, indian meal moths and grain moths for up to 12 months.

The pack connects directly to application machinery so there is no measuring or pouring required. The system reduces the risk of application errors, has no concentrate to expose operators to & allows load rates to be maintained.

### K-Obiol contains

Deltamethrin 6gms/litre. Piperonyl butoxide 54gms/litre. K-Obiol is accepted for use by the Brewing Research International (BRI) and the National Association of British and Irish Millers (NABIM)

### Application Rate

4.2L of K-Obiol® ULV6 for 100 tonnes of grain for 12 months protection.

The Application rate of 42ml per tonne (or 42mg/kg) means the MRL is not breached and is 8 times less than accepted limits.

The manufacturing process of brewing and baking removes the residues of Deltamethrin therefore Deltamethrin is not detected in the finished product.

Specialist Ultra Low Volume (ULV) application equipment is required.

MAPP: 13572

Code	Description	Price
K-OBIOLULV16	15 Litre	On application

## Application Equipment

LODI have worked together with Grundfos for over 30 years in providing high quality and accurate pump systems to ensure that K-Obiol is correctly applied to your grain. We offer two types of application systems – one that can be fitted onto a combine or alternatively to a dryer or conveyor system at your stores.

## K-OBIOL ULV6 Spray Application Equipment

Whatever your spray application requirements we can provide a solution to meet your specific needs.

### PORTABLE DIGITAL PUMP

K-Obiol Pump 2

Simple portable unit comprising of a pump mounted on a stainless steel frame which fits directly onto the K-Obiol ULV6 15 litre container. The pack also contains nozzle, bracket & hoses. Simple portable unit.

**envu**<sup>TM</sup>

# K-OBIOL

# PHOBI SMOKES

For Empty Grain Stores

## Phobi Smoke Pro 90C+

### 7.0% Cypermethrin

#### Control of stored grain pests.

The new Phobi Smoke Pro 90C+ is a highly effective acaricide / insecticide for use in empty grain stores. Phobi smoke has proven 100% efficacy in the control of Grain Beetles / Grain weevils and Grain mites. Simply light the wick of the smoke and place in the empty grain store and the smoke will reach into all the nooks and crannies where the insects hide.

- 100% Efficacy
- Active ingredient – Cypermethrin
- 100g smoke

HSE: 10615

Code	Description	Price
G3053	Phobi Smoke PRO 90C+	£32.19

## Phobi OPP Fungicidal Smoke

### 30.00% 2-phenylphenol

The new and unique Phobi OPP is a fungicidal, bacterial and virucidal disinfectant smoke containing OrthoPhenylPhenol with proven minimum 99.9% control.

Moulds growing in grain stores and on the grain are one of the great concerns for farmers and grain store facilities. Moulds can produce some of the most poisonous food-borne mycotoxins whose effects are acute with symptoms of severe illness appearing quickly after consumption of food products contaminated with mycotoxins. Other mycotoxins occurring in food have been linked to long-term effects on health.

Phobi OPP has the advantage as a smoke to reach into all the cracks and crevices of the store and control at least 99.9% of all moulds and forms an integral part of any Pre-Harvest disinfection program.

- Eradicates minimum 99.9% of fungus and moulds
- Easy to use
- Integral part of a Pre-Harvest disinfection and pest control program for grain stores
- 250g smoke treats up to 450 cubic metres

Code	Description	Price
G4010	Phobi OPP Fungicidal Smoke	£32.19
