ORGAN-X FRUIT & VEG BUG SHIELD

Organ-X Bug Shield is a ready to use pesticide free spray to control a wide range of plant pests including spider mites, whitefly, aphids & scale insects such as mealybugs. Due to the physical mode of action these plant infesting bugs will not become resistant to the product when correctly applied. Organ-X Bug Shield also acts as a foliar nutrient feed (to recover from pest damage) supplement whilst protecting plants and their leaves against powdery mildew. Can be used on ornamental and edible crops. Just wash fruit and vegetables well before consuming.

1 litre Ready to Use Spray/ 3 litre RTU Refill

This product works as an insecticide/acaricide/fungicide by physical means!

- Can be used on all edible and ornamental crops.
- No harvest interval required.
- Biodegradable and non-toxic
- Plant wash for a cleaner shiny appearance.
- Controls powdery mildew
- Plant stimulant and foliar feed – helps to prevent chlorosis and improves leaf colour.
- Suitable for use throughout the year.

DIRECTIONS FOR USE:

SHAKE WELL BEFORE USE.

To achieve maximum effectiveness, ensure product is applied thoroughly to upper and lower leaf surfaces on a weekly/fortnightly basis. For heavy infestation treat plants at 2/3 day intervals. This will also help control eggs, pupae, waxy insects and red spider mite. Weekly applications for control of powdery mildew are recommended.

Protect from frost.

Store out of direct sunlight above 10°C and below 25°C.

Some varieties may be susceptible to scorch, especially in hot conditions and it is advisable to spray a small trial area first. This pouch is refillable using **ORGAN-X UNIVERSAL BUG SHIELD REFILL**.
