information

Organ-X Desi-Dust Natural Hygiene Powder is made from 100% tiny abrasive fossilised silica diatoms also known as Diatomaceous Earth. Diatomaceous Earth promotes a healthy environment for poultry, pets, plants, animals and more.

Desi-Dust Natural Hygiene Powder can be applied on and around poultry, pets and animals (avoid contact with eyes) including their bedding, housing, dust baths, litter areas, cracks and crevices. The natural silica absorbs any moisture, reduces odour and bacteria breeding grounds, creates a physical barrier to protect animals, resulting in clean dry hygienic environment. Animal productivity is increased due to comfortable surroundings. Environmentally friendly and ideal for Organic farming.

Desi-Dust Natural Hygiene Powder for Plants – Promotes a healthy plant environment. The diatomaceous earth helps plants develop a healthy root system and assists in the absorption of nutrients from fertilizer and retains moisture in potting soil.

Desi-Dust Natural Hygiene Powder for Pets – Promotes a healthy environment for cats, dogs, birds, horses and more. Apply, directly on animals (avoid eyes), to animal housing, in pet cages, kennels, litter boxes, bedding etc. Apply inside homes, along skirting boards, cracks and crevices, pieces of furniture where pets can pass including sofas, beds, carpets, floors, rugs etc.

Directions for use:

Always read the directions of use before applying.

Poultry - Always shake well before use. Remove the cap and point container towards the area to be treated and gently sprinkle DE powder. Apply the DE powder evenly over, poultry, animals and surfaces to be treated. Apply onto all surfaces including the nesting box, underside of the roof, dust baths, litter areas, taking particular care to target hard-to-reach areas cracks and crevices. Leave the DE powder in place for continuous hygiene control. For heavy infestations apply initially, repeat 3 days later and then use weekly as part of your regular cleaning routine. Remove eggs, drinking utensils before use For maximum bird welfare and living conditions use alongside Organ-X Red Mite Killer Spray and Organ-X Contact Red Mite Killer Powder and Organ-X Mini Smoke Red Mite Killer.

Plants - Desi-Dust can be applied to plants, their leaves and surrounding soil. Silica is naturally abundant in plants, aids growth and development, storing essential nutrients that are slowly released and encourages its own natural defence and repair. Desi-Dust can be liberally applied in and around the home, including in the garden when weather is dry.

Pets & Horses & Animals – Apply directly to pets, horses (including tail & mane) and animals (avoid contact with eyes) to all surfaces in, kennels, litter boxes, along baseboards, pieces of furniture where pets can pass or rest, (including sofas, beds, bedding, carpets) animal housing, pet living and sleeping areas.

PRECAUTIONARY STATEMENTS

Caution: Can cause moderate eye irritation to humans and animals. Avoid contact with eyes. Wear eye protection when applying the product. Use adequate ventilation and avoid breathing dust. Spot test in an inconspicuous area before fully applying product.

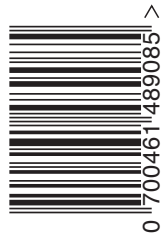

STORAGE
