- ✓ RTU Precision Powder

0.5%
Azamethiphos

QUARTZ^{AZ}

Azamethiphos 0.50% W/W
(Dusting Powder, CAS 35575-96-3)

Directions for use:

Wasp and Hornet Nests:

Apply 20g directly into the nest using a compressed air spreader. Apply primarily to the nest entrance. Repeat the treatment if necessary, especially after rain. Only spot treatments are allowed. Wear protective clothing to avoid stings.

Ants:

Apply 10g directly to the ant's nest, run or areas of high activity – this must be a direct application and not scattered. Treated areas must be protected from rainfall, if unprotected then re-application is necessary.

Bedbugs, Fleas & Cockroaches:

Apply 15g per square metre to infested areas such as cracks, crevices and where pests reside.

Bedbugs: Apply Quartz to bedframes, cracks, crevices, walls, floor areas (carpets) and furniture. Do not apply to mattresses, bedding or soft furnishings.

Fleas: Apply Quartz to cracks, crevices, walls, floor areas (carpets) and furniture. Remove the old pet bedding and replace with new. Do not use on bedding or soft furnishings.

Cockroaches: Apply Quartz to all areas where activity is found such as cracks, crevices, other hiding places and runways. Do not apply to soft furnishings. Repeat treatment as necessary to maintain adequate control.

Insecticide for professional use against flying and crawling insects such as Wasps, Hornets, Bedbugs, Fleas, Ants, Cockroaches

QUARTZ AZ is exclusively authorised to destroy pests in and around buildings (houses, blocks of flats, factories, warehouses, hospitals, museums, military establishments, vehicles, ships, and aircraft). Apply QUARTZ AZ directly to cracks, crevices and places where pests reside which will lead to a fast and effective control of the infestation.

STATUTORY CONDITIONS OF APPROVAL RELATING TO USE

For use only as an insecticide. For use only by professional operators.

The amount to be applied is 10g (ants), 15g (bedbugs, fleas, cockroaches) per square metre, or 20g (wasps and hornets) per nest.

This product is approved under The Control of Pesticides Regulations 1986 (as amended) for use as directed.

Users must comply in full with all their legal responsibilities under the Control of Pesticides Regulations 1986 (as amended), including complying with all Conditions of Approval.

READ ALL PRECAUTIONS BEFORE USE.

HSE: 9696-NI
HSE: 9696-GB

The COSHH (Control of Substances Hazardous to Health) Regulations 2002 (as amended) apply to the use of this product at work. Avoid excessive contamination of coveralls. Do not contaminate foodstuffs, eating utensils or food contact surfaces. This material and its container must be disposed of in a safe way. Cover all water storage tanks before application. All bats are protected under the Wildlife and Countryside Act 1981. Before treating any structure used by bats, consult Natural England, NatureScot or Natural Resources Wales. HAZARDOUS TO BEES. Exclude all persons and animals during treatment. Do not apply directly to animals. Exclude animals during application. Do not apply to clothing and bedding. This product contains an anticholinesterase organophosphorus compound. Do not use if under medical advice not to work with such compounds. Wash hands and exposed skin before meals and after use. Keep in a safe place. Action should be taken to prevent foraging bees gaining access to treated nests, preferably by removing the combs or blocking the nest entrance.
