STORM

PRO-FORMULA

BIRD HOUSING | WINDOWS | CARS | GARDEN FURNITURE

CHOOSE FOR YOUR GARDEN & HOME

Quickly dissolves messy corrosive bird poo and insect secretions or residues. Removes the risk of scratching delicate surfaces when removing dried or baked on bird poo by softening and breaking down the droppings. Ideal for cleaning up bird poo before installing bird spikes and bird deterrents.

WHERE TO USE BIRD POO & INSECT REMOVER

Storm Pro-Formula is also ideal for removing tree sap, stubborn insect marks, insect droppings and secretions including spider poo and fly spotting. Garden furniture and cushions... Simply spray, soften and wipe to remove bird droppings – easy to use with immediate results! Does not contain bleach and can be used for most surfaces including monuments, bird housing, caravan, tiles, windows, garden furniture, cars, solar panels, around most marine objects and fabrics also. Always surface/colour test on an inconspicuous area prior to use. Never try to wipe baked on bird droppings on delicate surfaces until they are soft as this can cause scratches to surfaces.

OTHER INFORMATION

Did you know - Psittacosis (also known as ornithosis) is a disease caused by the bacterium Chlamydia psittaci and causes a flu like illness, carried by infected birds. Humans most commonly catch the disease by inhaling dust contained in bird secretions and droppings. Salmonella - a bacterial infection that can cause diarrhoea - may also be present in some bird droppings. Storm Pro-Formula helps to reduce bird poo dust making it easier to clean droppings and remove potential germs. Avoid inhaling potential bird poo dust by wearing suitable protection.

Remove all birds and animals before treatment and introduce once clean and dry
