PRO FORMULA ANT SYSTEM

LONG  
TERM  
PROTECTION  
FOR OVER  
4 WEEKS

INDOOR &  
OUTDOOR  
USE

**Insecto Pro Formula Ant System** controls ants, the nests and their colonies fast. Ants are lured to the attractive bait which is consumed and taken back to the nest to feed to other workers and the queen. The delayed action of the active ingredient acts to effectively destroy the ant nest / colony. Bait is proven to be the most effective way of targeting the queen ant and destroying the nest.

#### Directions for use:

Insecto Pro Formula Ant System consists of a 10g syringe ant gel bait together with 2x refillable bait stations.

Place a 0.1g (size of a lentil) inside the ant station and place as close to the ant nest as possible or along runs and high activity areas. Do not disturb feeding ants as it is essential that they take the bait back to the nest in order to feed other working

ants including the queen. It is normal to see activity increase as other ants are alerted to the food source. The nest and the queen ant are effectively destroyed in 2 weeks ensuring long term control.

The system should be used at the first sign of ant activity – move the bait station if the gel is not consumed.

#### Application:

**Indoor/Outdoor: Place 1 to 2 stations as close to the ants nest as possible or along runs and high activity areas.**

**Lay the ant station on a non-porous surface within close proximity of the domestic dwelling.**

**Refill the station once the gel has been consumed.**

#### Composition

1 g/kg of Acetamiprid (N°CAS 160430-64-8)  
Contains a bittering agent (denatonium benzoate)  
Biocide product (insecticide PT18)  
Formulation code: RB (ready bait gel)

#### Cautions

P102 Keep out of reach of children.  
P312 Call a POISON CENTER or doctor/physician if you feel unwell.  
P501 Dispose of contents and container according to your national regulations  
\*DO NOT USE where food, feed or water could become contaminated.

\*PREVENT ACCESS TO BAITS by children and animals.  
\*This material and its container must be disposed of in a safe way.  
\*ALL BATS ARE PROTECTED UNDER THE WILDLIFE AND COUNTRYSIDE ACT 1981. BEFORE TREATING ANY STRUCTURE USED BY BATS, CONSULT NATURAL ENGLAND, SCOTTISH NATURAL HERITAGE OR THE COUNTRYSIDE COUNCIL FOR WALES.  
\*HAZARDOUS TO BEES.  
\*USE ONLY in positions inaccessible to children and animals.  
\*KEEP IN A SAFE PLACE.  
Store between 5° and 35° c. sensitive to frost.

#### Pack size:

## 10g gel bait

& 2x reusable ant bait stations

**Batch number:** see primary packaging  
**Exp date:** see primary packaging

#### Statutory Conditions:

HSE no. 10306  
READ ALL PRECAUTIONS BEFORE USE.  
Users must comply in full with all their legal responsibilities under the Control of Pesticides Regulations 1986 (as amended), including complying with all Conditions of Approval  
FOR USE ONLY AS AN INSECTICIDE
