DIGRAIN

C40 WP

INSECTICIDE

Contains:
400g / kg of Cypermethrin
as a wettable powder

**A broad spectrum synthetic
pyrethroid residual insecticide.**

For professional use in and around domestic and industrial establishments, agricultural buildings, stores, storage areas, slaughter houses, refuse tips, dustbins and around manure heaps.

For the control of flying and crawling insects such as cockroaches, fleas, ants, bedbugs, silverfish, woodlice, earwigs, millipedes, centipedes, houseflies, cluster-flies, mosquitoes and wasps.

500g

**DIRECTIONS FOR USE**

Add 1-2 litres of clean water to the sprayer, and then add the product according to the table below. Use the blue scoop provided with this pack for dispensing the product. A 'rounded' scoop of product measures approximately 10g. Add the remainder of the water. Shake the sprayer to mix contents. Apply as a coarse low pressure spray. Make up spray as required. Do not store prepared spray overnight. 1 litre of ready-for-use spray treats 25 square metres of sprayable surface. Shake sprayer to re-mix contents if spraying is interrupted for more than 30 minutes. Do not use spray near electrical appliances, light fittings or switches.

TARGET PEST	PRODUCT	WATER	COMMENTS
CRAWLING INSECTS Routine treatment: Heavy infestation:	10g 20g	5 litres 5 litres	Maintenance or 'spot' treatment Attack or 'clean-out' treatment
FLYING INSECTS Routine treatment:	10g	5 litres	For the control of 'resting insects'

Exclude all animals before treatment and do not reintroduce until all treated surfaces are dry and area is thoroughly ventilated.

Some surfaces will absorb more spray, e.g. brickwork or concrete, whereas surfaces such as metal or plastic will allow spray to easily 'run off' significantly reducing the deposit rate of the active material on the surface. Several passes of a light spray each allowed to dry is more effective when treating non-porous surfaces.

APPLY AS A COARSE LOW PRESSURE SPRAY AS FOLLOWS:

Crawling insects: Apply spray to harbourages, resting places and vertical and horizontal surfaces where insects are seen. Pay special attention to cracks and crevices especially around animal sleeping areas.

Houseflies, Cluster-flies and Mosquitoes: Apply spray to walls, ceilings and areas where pests rest. Do not treat exposed food or food preparation areas.

Wasps: Spray the nest entrance and the surfaces upon which wasps alight.

STATUTORY CONDITIONS RELATING TO USE

FOR USE ONLY BY PROFESSIONAL OPERATORS. FOR USE ONLY AS AN INSECTICIDE.

Users must comply in full with all their legal responsibilities under the Control of Pesticides Regulations 1986 (as amended), including complying with all Conditions of Approval.

READ ALL PRECAUTIONS BEFORE USE. HSE No. 10402

The COSHH (Control of Substances Hazardous to Health) Regulations 2002 (as amended) apply to the use of this product at work. Avoid excessive contamination of coveralls. DO NOT CONTAMINATE FOODSTUFFS, EATING UTENSILS OR FOOD CONTACT SURFACES. This material and its container must be disposed of in a safe way. Avoid contact with skin. Avoid contact with eyes. Do not breathe spray. Do not empty into drains. Do not contaminate ground, waterbodies or watercourses with chemicals or used container. REMOVE OR COVER ALL FISH TANKS AND BOWLS before application. UNPROTECTED PERSONS AND ANIMALS SHOULD BE KEPT AWAY FROM TREATED AREAS UNTIL SURFACES ARE DRY. COVER ALL WATER STORAGE TANKS before application. ALL BATS ARE PROTECTED UNDER THE WILDLIFE AND COUNTRYSIDE ACT 1981. BEFORE TREATING ANY STRUCTURE USED BY BATS, CONSULT NATURAL ENGLAND, SCOTTISH NATURAL HERITAGE OR THE COUNTRYSIDE COUNCIL FOR WALES. HAZARDOUS TO BEES. DO NOT APPLY DIRECTLY TO ANIMALS. DO NOT APPLY TO CLOTHING AND BEDDING. KEEP IN A SAFE PLACE. Keep out of reach of children. DO NOT HANDLE TREATED FABRICS UNTIL DRY AND AIR THOROUGHLY BEFORE USE.

To avoid risks to human health and the environment, comply with the instructions for use.
