

DIGRAIN LOCLEAN

Concentrated disinfectant liquid

Virucidal activity according to EN 14476

DIGRAIN LOCLEAN disinfects floors and washable surfaces in all premises. This product is bactericidal (kills bacteria), fungicidal (destroys moulds, spores or fungi) and virucidal (kills viruses) and is suitable for floors and washable surfaces (door handles, work surfaces, etc.) in all premises (food processing industries, hotels, restaurants, hospitals, clinics, sanitary facilities, schools, etc.).

MODE OF USE

Apply the product after cleaning surfaces.

For a bactericidal activity, apply the product at a 1.0% dilution in water and leave the surfaces wet during 5 minutes. Rinse the surfaces that will enter in contact with food or allow to dry those surfaces that won't enter in direct contact with food.

For a fungicidal activity, apply the product at a 2.5% dilution in water and leave the product dry during 15 minutes.

For a virucidal activity, apply the product at a 2% dilution in water and leave the product dry during 5 minutes.

The product at its use dilution can be applied by different means: mopping the product, wiping surfaces using a cloth or spraying/pulverising the product dilution on the surfaces : flooding surfaces or immersing some equipment and tools.

Efficiency :

Bactericidal activity : *Pseudomonas aeruginosa*, *Staphylococcus aureus*, *Enterococcus hirae* and *Escherichia coli* according to EN 13697:2002. *Listeria monocytogenes* and *Salmonellatyphimurium* according to EN 13697:2015

Fungicidal activity: *Aspergillus brasiliensis* and *Candida albicans* according to EN 13697: 2015.

Virucidal activity : Poliovirus type 1, adenovirus type 5 and murine norovirus according to standard EN 14476.

Biocidal product PT2 and PT4.
