DIRECTIONS FOR USE

CLEAR PEOPLE, PLANTS AND ANIMALS FROM THE AREA TO BE TREATED AND COMPLETELY COVER FISH TANKS.

Place each smoke generator on a fireproof base of approximately 500 mm x 500 mm but NOT in a bucket or other enclosed space. Take the required number of smoke generators. Tear off tag and remove container cap. When a number of smoke generators are being used, space them throughout the area to be treated, and prepare all for ignition before lighting the first. Light the igniter using a match. Do not leave lighted match on generator. Light smoke generators in sequence, starting with the furthest from an identified exit.

Leave for not less than two hours or one hour per 1.5 m ceiling height. After treatment is complete, open windows and doors and ventilate thoroughly.

WASH HANDS AND EXPOSED SKIN before meals and after use.
KEEP IN A SAFE PLACE. Keep away from sources of ignition - No smoking. Keep out of the reach of children. WASH ANY CONTAMINATION from skin or eyes immediately. Keep away from food, drink and animal feedingstuff. VENTILATE TREATED AREAS THOROUGHLY after application. PLACE PRODUCT ON A HEAT PROOF SURFACE.
