## DIRECTIONS FOR USE:

Remove/cover processed foodstuffs, utensils and food preparation equipment. Cover unprocessed foodstuffs.

Seal area to be treated as effectively as possible.

Close doors and windows, block fire places and exclude draughts.

Clear people, plants and animals, including fish, from the area to be treated.

Take the required number of smoke generators.

Remove the container cap.

Place each smoke generator on a fireproof base approximately 300 mm x 300 mm but NOT in a bucket or other enclosed space.

When a number of generators are being used, space them throughout the area to be treated and prepare all for ignition before lighting the first.

Light the igniter using a match.

Do not leave lighted match on generator.

Light smoke generators in sequence, starting with the furthest from an identified exit.

Leave for not less than two hours or one hour per 1.5 m ceiling height.

After treatment is complete, open windows and doors and ventilate thoroughly. The product may be used to treat empty bins and stores, or spaces where unprocessed foodstuffs are protected from deposits of the insecticide by means of a covering not more permeable than twill jute sacking.
