Organ-X Moth Magnet Glue Trap

Organ-X Moth Magnet Glue Traps – Contains a pheromone for monitoring and trapping moths, indicates potential infestations and activity. They trap adult male moths and can also trap female moths when placed on the floor. **Clothing & Carpet Moths** can damage wool, silk, cotton fabrics to clothes, carpets and textiles around the home. For wardrobes, airing cupboards, clothes storage areas and living rooms. Organ-X Moth Magnet is a **Pesticide-FREE** trap. Proven design. Works for up to 4 months. 1 Trap can be used for wardrobes up to 1.5 cubic meter in volume.

How to use Organ-X Moth Magnet Trap Location:

For Traps: Remove the trap from the package and open. Remove silicone protective paper from the sticky trap board surface. Follow the diagrams to form and use the Organ-X Moth Magnet trap. The trap is now ready to be hung using the incorporated hook or placed on a shelf, in a wardrobe, airing cupboard, clothes storage area or under sofas where moth activity is suspected or have been seen. Trap may also be placed on the floor in wardrobes to trap both male & female moths.

For Glue Boards - remove glue board from package. Then remove silicone protective paper. Place glue board in Plastic Trap holder. Follow instructions for placement in wardrobes and closets. Set the month marker on the plastic trap to indicate when the trap should be replaced.

For Best Results: Replace Organ-X Moth Magnet every 4 months or when trap is full. In the event of a moth infestation: If you don't wish to use a chemical insecticide, remove all clothes from the infected wardrobe or closet and brush them outdoors. Put wool/silk clothes in plastic bags and place in a freezer for 24 hours. Clean closet walls, floors and shelves thoroughly. Should infestation persist, use a recommended insecticide product to treat the infestation. For carpets, treat with a recommended insecticide product from the Insecto or Organ-X range listed on
