

### Instructions for use:

1. Remove the anti-tamper clip from the back of the cobra head. This allows you to spray when needed. Replace when finished treatment.
2. Select the desired spray nozzle from the dual action cobra spray attachment. Normal aerosol spray with the lance in the down position for a wider spray and more coverage. Lance in the up position for a more targeted narrow and powerful spray. Good for hard-to-reach areas, nooks and crannies or inside nests.
3. Wait for the insect to be slow moving or settled.
4. Hold the aerosol upside down (this creates the super cold chain reaction freeze blast) and spray short blasts with pressure for 2 to 3 seconds, 25-30cm from the target insect, until it is paralysed.
5. Repeat the treatment until the insect (or egg, egg sack, nymph, larvae, spiderling) is frozen or a layer of frost appears and the insect is no longer moving.

DO NOT SPRAY ON THE SKIN, RISK OF ICE BURNS.  
NEVER SHAKE THE AEROSOL WHILE IN USE.

### DANGER

P102 Keep out of reach of children.

P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

P211 Do not spray on an open flame or other ignition source.

P251 Do not pierce or burn, even after use.

P260 Do not breathe spray.

P271 Use only outdoors or in a well-ventilated area.

P403 Store in a well ventilated place.

P410+P412 Protect from sunlight.

Do not expose to temperatures exceeding 50°C/122°F.

H222+H229 Extremely flammable aerosol. Pressurized container: may burst if heated.

### Organ-X Spider Killer Freeze Blast

**Neutralizes and instantly kills insects. Organ-X Spider Killer Freeze Blast is chemical free, odourless and non-staining, the liquid sprays from the aerosol at -40°C, paralysing the insect before freezing it to death.**

### Where to use:

Organ-X Spider Freeze Blast helps to get rid of harmful and nuisance spiders and insects. Suitable for both outdoor and indoor use, in open areas, kitchens, food environments, bedrooms, bedding, hard/soft furnishing, hard to reach areas, nooks and crannies. Ensure you test on a small area before use and be careful of surfaces sensitive to gel. Can be used around children and pets. Effective on flying and crawling insects such as spiders, wasps, fleas, bedbugs, silverfish, ants, red mites, plus eggs, larvae and nymph stages of insect life cycle.
