Organ-X Bug Killer

Pyrethrum is extracted from natural chrysanthemum flowers and formulated into a fast action, knockdown and contact insecticide powder, rapidly killing all flying and crawling insects.

Instructions for use:

Apply the powder directly at insects. Apply onto all surfaces where insects are located including areas of insect damage, hard, porous and non-porous surfaces. Always shake well before use. Remove the cap and point container towards the area to be treated and squeeze gently. Apply the powder lightly and evenly over all surfaces of infestation, e.g. including nests, hiding areas of insects, cracks and crevices. Leave for at least 30 minutes then remove any unwanted excess powder. Repeat treatment as necessary. For best results leave powder down for as long as possible (several hours) before removing any unwanted excess powder by carefully sweeping or vacuuming. Always replace the cap after use. NOTES: Always exclude children and pets while treatment is in progress.

DO NOT apply powder directly on to pets. Ensure ALL PRODUCT has been removed before allowing pets back into treated area. Not for use on plants.
