# Insecticide for professional use against Bedbugs, Ants, Wasp Nests, Hornet Nests, Fleas and Cockroaches

**QUARTZ AZ** is exclusively authorised to destroy pests in and around buildings (houses, blocks of flats, factories, warehouses, hospitals, museums, military establishments, vehicles, ships, and aircraft). Apply **QUARTZ AZ** directly to cracks, crevices and places where pests reside which will lead to a fast and effective control of the infestation.

**Azamethiphos 0.50% W/W**  
(Dusting Powder, CAS 35575-96-3)

## Directions for use:

### Wasp and Hornet Nests:

Apply 50g directly into the nest using a compressed air spreader. Apply primarily to the nest entrance. Repeat the treatment if necessary, especially after rain. Only spot treatments are allowed. Wear protective clothing to avoid stings.

### Ants:

Apply 10g directly to the ant's nest, run or areas of high activity – this must be a direct application and not scattered. Treated areas must be protected from rainfall, if unprotected then re-application may be necessary.

### Bedbugs, Fleas & Cockroaches:

Apply 15g per square metre to infested areas such as cracks, crevices and where pests reside.

**Bedbugs:** Apply Quartz to bedframes, cracks, crevices, walls, floor areas (carpets) and furniture. Do not apply to mattresses, bedding or soft furnishings.

**Fleas:** Apply Quartz to cracks, crevices, walls, floor areas (carpets) and furniture. Remove the old pet bedding and replace with new. Do not use on bedding or soft furnishings.

**Cockroaches:** Apply Quartz to all areas where activity is found such as cracks, crevices, other hiding places and runways. Do not apply to soft furnishings. Repeat treatment as necessary to maintain adequate control.

## STATUTORY CONDITIONS OF APPROVAL RELATING TO USE

### For use only as an insecticide

The amount to be applied is 10g (ants), 15g (bedbugs, fleas, cockroaches) per square metre, or 50g (wasps and hornets) per nest.
